

# GDPR Compliance

## Fix

### GDPR affects all organisations. Are you compliant?

The General Data Protection Regulation (GDPR) applies to all organisations with information relating to employees, customers or suppliers. The law came into force on 25 May 2018, legally obliging you to ensure that you have the necessary records and procedures in place to protect personal data.

For most organisations, employing a full-time data protection specialist isn't an option. You could divert valuable resources to training-up your staff, or engage one of the many large data security firms to exaggerate the complexity of the task and overwhelm you with jargon.

Or, you could **keep it simple** with **GDPR in a Box™**, from compliance experts Equas.

### GDPR in a Box™

GDPR in a Box™ is the most simple, cost-effective way for an organisation to achieve and maintain compliance with the GDPR. Our structured approach catalogues your data sets, identifies how the GDPR applies to each, analyses the measures that you have in place and identifies any gaps. Backed by our in-house legal team, our consultants design and implement the necessary controls to ensure that you achieve compliance.

Select either of our packages:

#### Full Compliance Fix

With this package we use the GDPR in a Box™ framework and template materials. Our consultant carries out the complete compliance project, with assistance from you. Our legal team reviews the necessary legal notices and documents created to ensure suitability and compliance with the GDPR.

Ideal for organisations with limited internal resource or who want to achieve compliance quickly and effectively.

#### Assisted Compliance Fix

With this package we provide the GDPR in a Box™ framework and template materials to you. Our consultant gives remote training and advice to support you to work through the compliance process yourself. Optionally, our legal team can review the necessary legal notices and documents that you create to ensure suitability and compliance with the GDPR.

Ideal for simpler organisations with available in-house resource and/or a limited budget.

GDPR in a Box™ Gap Analysis service is provided at a **fixed cost** with **no hidden extras**.

**Simple, assured compliance.**
