

ISO 50001:2018

Energy Management Standard

Is your organisation looking to achieve cost savings, improve energy efficiency and comply with the ESOS Regulations?

If so, certification to ISO 50001:2018 – the internationally-recognised standard for energy management – is the route you should consider. This standard helps organisations to reduce costs through improved energy performance while complying with the ESOS regulations and other energy legislation.

Key requirements

- ✓ Implement a policy for improving energy performance
- ✓ Analyse and understand the key energy drivers in your business
- ✓ Implement an energy planning and review processes
- ✓ Set targets for reducing your energy consumption
- ✓ Identify energy performance improvement opportunities and maintain an improvement programme
- ✓ Evaluate and prioritise the implementation of new energy-efficient technologies
- ✓ Implement operational controls to support improved energy performance
- ✓ Measure and monitor energy performance
- ✓ Engage employees and suppliers
- ✓ Undertake asset, system and compliance audits
- ✓ Conduct system reviews

Key benefits

- ✓ Significantly reduced energy costs and carbon footprint for most organisations
- ✓ Achieve higher ROIs on plant, equipment and infrastructure
- ✓ Maintain compliance with energy legislation – in particular the Energy Savings Opportunity Scheme (ESOS) regulations
- ✓ Readily available data for producing Greenhouse Gas Reports for annual company reports
- ✓ Improved position in the Carbon Reduction Commitment (CRC) Performance League Table
- ✓ Help maintain rebates for the Climate Change Levy (CCL)
- ✓ Enhance existing Quality, Environmental and Health & Safety management systems

Equas will support you by completing an extensive review of your existing system and controls and providing you with any documentation, assessment or guidance needed to successfully achieve certification within a manageable timescale.

Equas services are provided at a fixed cost and carry a GUARANTEE of successful certification.
